2013 ANNUAL REPORT

The Regulations at 16 TEXAS ADMIN. CODE §12.108(b) require that each permittee pay an annual fee of \$84.00 for each acre of land from which coal or lignite was mined during the period January 1, 2013, through December 31, 2013, a fee of \$12.00 for each acre of bonded land within a permit area on December 31, 2013, and a fee of \$6,540.00 for each permit in effect on December 31, 2013. These fees are due and payable not later than March 15, 2013, and should be reported on this form. Please complete this form and return it with the fee payment (checks should be made payable to the Railroad Commission) to the Surface Mining and Reclamation Division by March 15, 2014.

If multiple permits exist for a permittee, please submit a **separate completed form for each permit**. This will ensure that the fee payment can be properly accounted by permit number. The acreages submitted in this report should reflect only the twelve-month period of the calendar year being reported for the permit and not cumulative totals for the mine operations.
